About Faculty Development Program

The FDP on "**Empowering Educators to integrate NEP 2020 Principles and Indian Knowledge System (IKS) in Indian Higher Education**" is a five-day program that aims to provide educators and researchers with a comprehensive understanding of Indian Knowledge Systems (IKS). The program is in line with the goals of the National Education Policy (NEP) 2020, which places IKS at the core of Indian education.

Through this FDP, educators gain insights into India's rich heritage, including its contributions to science, mathematics, medicine, literature, and spirituality. By bridging the gap between ancient knowledge and modern education, the FDP empowers teachers to create culturally grounded yet globally competent learners. It also aligns with India's vision of becoming a knowledge superpower. Ultimately, this FDP ensures the NEP's objective of integrating IKS into education is not just theoretical but a practical and enriching reality.
